Dear Dr. Vaidya,

I am extremely sorry I could not come there either for the functions or for my weekly visit owing to pressure of work here. I am glad the function was a grand success. I was hopeful about coming there but I had to cancel as I could not leave my work here.

My brother-in-law Shri Mohan Deshpande, whom you may recall about 3 weeks back is still not relieved of his complaints. He is coming there to-morrow (ie. 16th instant) by passenger at 5.30 P.M. & by mail

Dear Dr Vaidya,

Thank you so much for your kind invitation to attend the function on Saturday Dec 13.

I am very sorry, indeed that other pressing activities here at Gargoti will prevent me from being present at this auspicious occasion.

May I extend to all the Council and members of the staff a most cordial greeting and sincere wishes for the early completion of this important wing of K.H.I.

The rapid growth and development of the services of K.H.I represent a valuable

...mmon to the health and welfar
of a vast community.

The physical development of K
is but one aspect which reveals th
sincerity and dedication of you and
your staff in these ~~ex~~panding services
to meet the needs of the people.

My Congratulations to all and
much good luck and success in
the resulting endeavors.

Most Sincerely Yours
Helene Moos
Saipoti.

Dear Pandikar

I have received the invitation for the function on the 13th & I would have attended the ceremony in normal course but since last 2 days I am not quite well. I have a bad strain of back muscles & I can't move an inch with ease & comfort. Every movement is attended with much pain & difficulty. So, I regret I can't attend the function with ease of mind & body. I may kindly be excused for the same. Hope you will understand.

Received the Packet

Shimoga -
10-12-58

My Dear Doctor

I thank you very much for your kind invitation for the function of Laying of the Foundation stone by the Governor of Bombay. I am so very sorry to see the progress the KTH Institution is making. Although I am not able to attend the function I must sincerely wish for the immense progress of the Institution and pray God Shld keep on helping it which is out for the real service of Humanity I know, that the progress of the Institution has been by leaps & bounds only after you came to KTH and you are known as a Dr. very eminently. Your name is heard even in Shimoga. As such, there is no doubt the KTH will thanks to the peak and the Bahiru would still have the greatest relief at your institution Let God help it

It was last month or so, I wrote to Dr to tell his address I am sure he is in KTH now. Kindly mention my sincere regards and inform him that I am doing well here I had for one week the FLUE, and now I am alright. If the Dr has any chance of coming over to this side I will meet him. I hope he is doing well.

So far, I could not be able to go over to Belgaum. My family is still there. My wife is keeping low health.

With warm regards to the Lord Doctor.

Yours sincerely

Madhoor

My dear Dr. Vaidy

I was glad to receive your invitation card and more so that K.H.I. is steadily and surely making progress as it is growing in age. You should have the satisfaction that the Institute is taking shape of your vision. A new comer may not be much impressed but those who are observing the K.H.I. since its birth cannot but be thankful to it's present CMO for its robust and perfect shape of today

This weekend I am going to Bombay

for some social call and therefore incidentally, I shall have myself checked up by Dr. Sathe. As usual during late autumn and winter I have my physical troubles + somehow I can carry on with Modern drugs - Cortisone and Hetrazen etc..

Hoping this finds you and your colleagues fit + full of vigour. My respect to Dr. Hardikar and greetings to Mrs. Vaid and love to Children

Yours Sincerely

Chief Comml.Supdt.

Madras,
13th December 58.

Dear Justice Lokur,

From an invitation I have received, I see that you are the President of the Governing Council of the Karnatak Health Institute, Ghataprabha. I could not attend the Foundation Stone Laying Ceremony. I thought I would, however, write this letter to pay my respects to you.

I am now in Madras as the Chief Commercial Superintendent of the Southern Railway.

I trust yourself, Mrs. Lokur and family are all keeping good health.

Yours sincerely,

J.B. Rao

Shri N.S. Lokur,
President,
The Karnatak Health Institute,
Ghataprabha, Mysore State

Dear Dr. Vaidya;

I thank you very much for the Invitation you have sent to me for the occasion of the laying of the Foundation Stone to the Out-Patient Department building of your Institute. I received this invitation only on the 13th and therefore, I am only able to send you my best wishes for the constant growth and prosperity of your institution to reach you after the ceremony is over. All the same, my best wishes are with you and your institution and I do hope you will continue to get the necessary assistance from the Government in greater measure also in the years to come.

Yours sincerely,

Date: 15.4.1959

President, and my brothers and sisters --

I have great pleasure to welcome Dr. Lotta Hitschmanova of Canada, Executive Director of the Unitarian Service Committee and a famous Social Worker, this second time on behalf of myself and my villagers.

We had suggested to Dr. Lotta Hitschmanova when she had last come here for the opening ceremony of the Veterinary Hospital, that we intend to have a Maternity Home in our village.

For constructing the building of the Maternity Home, the N.E.S. Authorities had consented to grant half of the cost of the building and we were to bear the other half. So, we were able to collect our share. But the question of its running has arisen and we are in correspondance with the Government . In case the Government will not undertake the running of the said Maternity Home, we request the K.H.I. to run the same and we promise to give every possible assistance and co-operation to the Institute.

The said Institute which is giving medical aid once a week for the last 2 years, is of immense help to our village and we are highly obliged to the K.H.I. and especially to the calm and pains taking Dr. Balankhe who is in charge of our village.

The said K.H.I. is kind enough to grant us one more scheme from today i.e. they will be sending their Lady Doctor - Dr. Mrs. Athalye, every Wednesday and we hope she will be of great help to our children and women.

The Opening Ceremony of the said scheme which has already taken place at the hands of Dr. Lotta Hitschmanova. I hope the K.H.I. has granted this very important scheme to us as a token of their love towards our village and every one of our children and women will take advantage of it.

From the time of the very beginning of the K.H.I. our village, I am proud to say that we have a closer link and affection towards that rising Institute and since Dr. Vaidya the Chief Medical Offi has taken charge we are very closer to the Institute and last we have become one with the Institute since the maternity Centre

Dr. Hardikar has taken over the management of the said Institute

To continue this one-ness, I request the management of the Institute to open its branch here and we promise every possible co-operation and assistance in the running of the branch, and I also earnestly request Dr. Lotta Hitschmanova who is present here on the occasion to give some sort of help, it is possible through her Organisation in the opening of a branch of the K.H.I. and for the proposed building and running of the Maternity Home.

Finally, I thank you Dr. Lotta Hitschmanova, Dr. Hardikar, Dr. Vaidya, and Dr. Balankhe and all the gentlemen and ladies who have kindly graced this occasion and take your leave.

My dear Dr. Hardikar

I am indeed thankful to you for the kind invitation you have extended to me to attend the inaugural function of the Presentation of the X-Ray unit to the Karnātak Health Institute.

How I wished I could be present for the function! All the same, believe me my prayers for the occasion for the function of the institute to render great service for the ailing society will be there.

Will you kindly convey my regards to Dr. Vaidya!

With my loving and affectionate regards to you.

Sincerely yours

13-4-1959

My dear Brother Dr Hardekka

It is with great pride That I received the invitation of The Karnatak Health Institute Ghalapkabha to be present on the Occasion of the Inaugrat of The new 70 M M X Ray unit donated by our Govornment.

It is all due to your Sincere task Shouldered by you towards the K.H.I. that the equippment of the Institution of Ultra Modern is secured and the Institute can boast of it.

Besides. Dr Vaidya and Dr Balanke have been treated by you not as paid staff of the Institute. They are enjoying your confidance which they so richly deserve It is all due to your capacity, honesty of purpose and selfless aim that you have raised the Status of K.H.I.

Personally my mother and I are so proud of K.H.I. in General and you in particular what benefit we received when my Sister-in-law was kept in T.B Sanitorium in an humble Cottage.

Bombay (28), 13th April 1959.

Dear Dr.Vaidya,

I thank you for your kind invitation to attend tomorrow's function at the hands of The Divisional Commissioner of Belgum. I wish all success of the function. I am glad to note, the progress you all are making. I may drop-in at your place probably in the last week of this month on my way to Belgum and Hubli with our Chairman Shri.Kotibhaskar

My respects to Dr.Hardikar.

Yours Sincerely,

K V Upadhye

(K.V.UPADHYE.)

To,
Dr.V.S.Vaidya,
M.S., C.M.O.
K.H.I.Hospital & Sanatorium,
Ghataprabha.

THE KARNATAK HEALTH INSTITUTE, GHATAPRABHA.

Date: 14.4.1959

Dr. Lotta Hitschmanova, Divisional Commissioner Shri Razvi, Dy. Commissioner Shri Ramachandran, Dr. Hardikar, Shri Shankarrao Kirloskar, coworkers and friends,

Today is a very important day in this area in my opinion. Important because, all these distinguished workers for the benefit of Humanity have gathered here to declare open for public benefit one of the greastest advances of the Modern world in its fight against diseases .... an X-ray machine that will bring X-ray facilities within easy reach of even the poorest man.

It was very kind of Shri Razvi, the Commissioner of Belgaum, to have agreed readily to our request to perform the Opening Ceremony of such an useful machine. We have always found in him a helpful friend and so we thought it in the fitness of things to request him including the Dy. Commissioner Shri Ramachandran.

The Karnatak Health Institute, perhaps some of you know and many do not know, was started in this barren place for giving the village brothers and sisters and their children the best facilities of the wonderful advances of Modern Medicine at the lowest possible charges.

If people or the Governments had given enough money from the very beginning, perhaps this Institution would be able to give both these things from its very beginning to anyone coming to it for help. But that was not so. We had to pass through many difficult tests before people and Government understood us. And we had to work by devising various methods which would help us in our goal.

We went on reducing charges for various services at every opportunity when we could save money or get more money. We have been treating increasing number of patients free every year. Increasing work makes this more easy every year and today are able to perform an operation on tonsil for mere 35 rupees instead of Rs. 75/- originally. A delivery with ante-natal examinations for 7 months costs only Rs. 15/- in place of Rs. 60 or 70 charged formerly or in any other Institution. Any Major Operation is performed for mere Rs. 150/- instead of Rs. 500/- or more; and now, this X-ray machine will enable us to bring down the charges for a chest X-ray from Rs. 20/- to Rs. 5/- per plate. We could now actually advocate every human being to get an x-ray of the chest every year to keep the dreadful disease - tuberculosis - away. A very easy and life saving measure costing you nothing more than a cinema show, or a few bidis, or some cups of tea that you may be consuming for weakening your health.

Even the acquisition of this machine was not an easy matter. For last sex years when the whole of India had only 4 or 5 machines, we began our struggle. We tried the Community Projects Administration, The Bombay Government, the Central Government, some rich personages, some business people, and the Jagadguru Murusavira Math Swamiji, with the sole idea of getting such a useful machine not necessarily at K.H.I. but anywhere in this area, and even as a commercial adventure. We were willing to give all technical help free to them. Still, however, we could go no far.

Just at this time, Dr. Lotta Hitschmanova the distinguished benefactor of humanity, who is the President on this occasion and who has made it possible for us to go to villagers in their homes with medicine and health advice by giving us a very useful 4-wheel drive ambulance, came forward with an offer to give a Mass X-ray Plant we desired. It was another instance of her strong desire to help the needy. Negotiations went sufficiently far when all of a sudden we learnt that the Central Government had decided to give us the machine needed.

(P.T.O.)

Now, at this stage I must tell you in few words what Dr. Hitschmanova represents and how she was made. She was born and brought up in the European country known as Czechoslovakia. While she was working for the people of her country, Hitler invaded and captured it. Dr. Hitschmanova was considered an enemy and to live in her country was dangerous. But to escape was also not easy. She was being hunted and had to hide. No one knew where she was, and she was cut off from the world without friends, food, water or anything for sustenance. For 3 weeks she was tortured by hunger, thirst and fear. She was dying, unattended. Just at this time a circle of friends learnt of the tragedy and managed to rescue her.

It was a very hard struggle to revive her with tube feedings, medicines and tender, courageous nursing. But they did succeed in saving a very precious life, indeed. A life that was going to write a fine inspiring example of service to humanity in this strife ridden world, Once out of danger, they sent her to safe place, tens of hundreds of miles away .... Canada.

A good Lady with Gods blessings, once free, she thought deeply over the happenings and said, " since God has saved me so miraculously, and my friends have brought me out of hunger, starvation and thirst, with so much love and struggle, I think this life is not mine. It belongs to God and suffering humanity, and I will utilise it by devoting the rest of my life to relieve human suffering, poverty and starvation wherever I can reach in the world."

What a courageous decision! and what a wonderful Lady! ! Many do live and have been saved from death even in this Institutic but no one thinks beyond becoming the usual old self, selfish and quarreling and regardless of others.

Dr. Lotta Hitschmanova began by begging from door to door from the Canadian people and then giving the collections to the poor and the needy every year.

You can understand the strength of her devotion, and determination when I say that in very few years, she has been able to build a huge organisation around her ideals and in the last year, in one appeal, she has been able to raise over 6 lacs of rupees in a short period of 3 to 4 months. This indicates how high she occupies a place in the minds of her doners. She does not take any luxurious food; She dislikes lunch parties, the poor stand before her eyes when she sees such occasions and she feels a spontaneous aversion towards them.

The organisation she has built is known as the Unitarian Service Committee of Canada. It runs with very minimum establishment expenditure and the way she manages almost single handed her collections, distribution, and planning is really wonderful. One distinguished American Social worker said it to me: " Oh she is a wonder, She has built a one woman organisation of great value and repute".

Every year she goes round the world after collecting her funds in search of spots of misery and suffering and then distributes the funds in well calculated plans to the needy, bringing back messages of goodwill and blessings from those people to the Canadian friends that help her mission.

That is what Dr. Hitschmanova is. That is how she has been a great source of inspiration in moments of disapointments in public service to persons like us. And that is why we admire her life and work and love to have her amongst us once a year at least. She has known no rest; and either mind or body are working almost continuously all along. The one van that she gave us in time of need is a symbol of her every quality in this compound sacrifice, goodwill, hard work, love for the humanity and many more things.

You will understand, therefore, better now how happy we were when we learnt that our Government had decided to give us

(P.T.O.)

the much needed X-ray machine and we could request Dr. Hitschmanova to utilise her precious funds earmarked for us for some other more needy project. You can also understand how Happy we are today to have Dr. Hitschmanova amongst us on this occasion of opening the X-ray machine which she was the first to offer, for the benefit of the public.

She has also brought another gift to be given to us on this occasion, which will give us considerable strength in our programme of Health Education which are the basis of our approach towards human illness and suffering.

I prey, therefore, that not only villagers, but all the people to take the best advantage of these machines and help us in building a healthy society this beautiful spot of Ghataprabh working on newer and steadily increasing activities for the benefi of human race.

With these words, friends, I take you permission and make way for the next item in today's programme.

****

BIOGRAPHY
of
DR. LOTTA HITSCHMANOVA
EXECUTIVE DIRECTOR
THE UNITARIAN SERVICE COMMITTEE OF CANADA

In 1945, Dr Lotta Hitschmanova organized the Unitarian Service Committee of Canada to bring emergency relief to war-torn Europe. Since that time, the USC has steadily expanded its work and includes today 50 different projects in eleven countries. It is the only all-Canadian voluntary organization to operate in Europe, the Middle East and Southeast Asia. It is non-denominational and gives aid to those in greatest need, regardless of creed, nationality, colour or caste.

Dr. Hitschmanova was born in Prague, Czechoslovakia, and is a graduate of the Universities of Prague and Sorbonne, Paris. She holds a doctorate in philosophy and diplomas in social science and journalism. Because of her open opposition to Hitler as a trained newspaper woman. Dr. Hitschmanova was forced to flee from Czechoslovakia after the Munich Agreement. For two years she successfully evaded the Gestapo in France; in 1942 she was granted refuge in Canada, and in 1948, became a Canadian citizen. She arrived in this country with $ 70 in her purse, and a burning desire, born of her personal hardships as a refugee, to help those she had left behind.

Dr. Hitschmanova was the first Canadian woman relief worker to enter Korea in 1952, at the invitation of the United Nations, and her survey of conditions there resulted in several mass feeding programmes that literally saved thousands of lives. In 1953, USC efforts were extended to India where the emphasis is mainly in the medical and educational fields. Two years later the USC moved into the Middle East where it has worked in close cooperation with the United Nations for the relief and rehabilitation of Arab refugees.

To keep in direct contact with conditions abroad, and to ensure efficient management of the USC aid programme, Dr. Hitschmanova undertakes a personal survey each year. She returns to Canada with recommendations to her Board for new imaginative projects that have

(P.T.O.)

been carefully considered, after thorough discussions with local officials and with the people whom they will benefit, to give maximum assistance where it is most needed, and especially to children.

A number of European and Asian governments have gratefully acknowledged the important work of the USC. Dr. Hitschmanova, as its Executive Director, is a Chevalier of the Order of Public Health of France and has received the French Medal of Gratitute; she is an honorary citizen of two Greek Communities, the holder of the highest decorations of the Hellenic and French Red Cross Societies, and the recipient of five Korean citations.

But the tokens of gratitude nearest to Dr. Hitschmanova's heart are the gifts made by deft fingers of children around the world and presented to her with their thanks for help received during the past thirteen years. She is truly called " Mother of a thousand Children ", and " Canada's unofficial good will ambassador".

My dear Rajendra Babu

I write in behalf of the Karnatak Health Institute, Ghataprabha, District of Belgaum, and respectfully request you to pay a visit to the same.

I need not remind you about the talks we had regarding your visits to Gokarn and Ghataprabha.

I am now told that you are coming to Dharwar in the month of November for the University convocation. If it is a fact then I urge you to spare some time for our Institutea also ?

With respectfull Pranams.

Your brother

Dear Sir,

I am desired to acknowledge receipt of your letter dated 23rd Sep.1959, addressed to the President, regarding his visit to the Karnatak Health Institute, Ghataprabha, and to inform you that the President has in mind to visit Ghataprabha, Dharwar, Gokarn, etc. sometime in early Nov.1959. We are working out a draft programme for the President's visit to the above-mentioned places, and a s soon as we have fixed the dates, I shall let you know.

Yours faithfully,

(C.S.Reddy) Lt. Col:

Camp Lonavla.

Dear Dr. Hardikar

Had work in Poona this A.M. so came here by car last evening, did the work and am now having my tea and starting on a huge pile of work (Papers) which I brought with me.

I understand from Vishnupant that the President is likely to come to Ghatapradha early in November and that my presence is required. I shall be glad to come and try to combine with some work at Miraj or a trip to Belgaum but I also must go in November to Nagpur and then Amroti for some leprosy work + Amroti One plastic surgeon and the ~~ma~~ster of the Occupational Therapy School e to be deputed to go with me and since takes time to get this approved I need to move as soon as possible just when

I shall be required at N. N. a. -
Cancel you hence let me know just a
soon as possible, so I can arrange
my plans, send up papers to Govt, etc.

Hope you are keeping good health

Sincerely

Kamalabai

My dear Doctor Sahib,

Your telegram of even date has been received by me just now regarding the programme of the President. Immediately on receipt of this telegram I had a talk on the phone with the Superintendent in charge of President tour programme. He told me that as per your request a visit of an hour's duration to the Karnatak Health Institute has been included in the proposed tour programme of the President. But this tour is proposed to be some time in the beginning of November According to the present proposal the President is to leave Poona on the 3rd of November and visit K.H.I. on the same day. But mind you this is not to be taken as final, because there may be many alterations in the programme and the same has to be approved also. He has, however, assured me that should the present programme be approved you will be intimated about the President's visit well ahead. I hope that will be all right.

I know you wanted a reply by telegram. But as you will realise I have to explain all the above details and therefore I thought it would be better if I send an express delivery letter.

Everything else is okay here. Sahab has returned from his tour on the 11th night. Rajabai is keeping well.

More later.

Yours,

Gopi

OFFICE OF THE MILITARY SECRETARY TO THE
PRESIDENT, INDIA, RASHTRAPATI BHAVAN, NEW-DELHI.

No. 90/TS/MYS-III(A) 6 16 October, 1959
Asvina, 1881 (Saka)

Dear Sir,

Further to this office letter of even number dated the 30th eptember, 1959, I am desired to inform you that the president will be pleased to visit the Karnatak Health Institute, Ghataprabha on Friday, the 6th November, 1959 from 8.30 a.m. to 9.30. a. m.

We have requested the chief Secretary to the Government of Mysore to include this item in the draft programme of the President's visit to Mysore State. It is requested that you may please draw up a draft programme covering an hour in consultion with the State Government authorities for the President's visit to the Karnatak Health Institute and send the same to this office for the president's approval.

It is hoped that you will be good enough to inform the authorities of the Karnatak Health Institute accordingly.

For your information, the President will be arriving at Ghataprabha by special train (M. G.) at about 6.00 a. m. on Fri., the 6th Nov., 1959. He will detrain at about 8.00a.m. and shall drive straight to the Institute. After visiting the Karnatak Health Institute he will resume his journey by special train for Dharwar, Leaving Ghataprabha at about 10.00 a.am.

Yours faithfully,

12

My dear Doctor Sahib,

Your express delivery post card of the 16th was received by me today. Thanks. I hope by now you must have received my telegram of the 7th intimating you the final programme of the President, i.e. he is to visit the Institute on Friday the 6th November between the hours 8.30 and 9.30 a.m.

As regards extending the time of the President's halt at Ghataprabha, I had a talk this morning with the Superintendent in charge of tours in the Military Secretary's Office. He said it is not at all possible now to allot more time for Ghataprabha, because in that event there will have to be alterations in the entire programme scheduled at present. So there is no use our approaching them with such a request. I, however, tried to impress upon him what all you have written, but his reply was that we will have to arrange our programme in such a way that it will not exceed more than an hour.

Regarding lunch, etc., it seems, there is a special directive from the President that no such engagements should be accepted, because he prefers to have his lunch, dinner, etc. in the train itself. So you will appreciate that no useful purpose will be served if I write to the Military Secretary in this regard. But I have a feeling that since the President is scheduled to reach Ghataprabha station at 6 a.m. on the 6th, if you write a letter direct and make a personal appeal that he should have his breakfast with you at the Institute on that day, he may consider accepting your suggestion. If you want to try this you will have to write immediately. Otherwise we will have to be content with what we have got.

I hope by now you must have received the letter of the 16th instant from the Military Secretary giving you the details of the programme. In that you have been asked to prepare a draft programme for the President's visit to Ghataprabha, in consultation with the State Government authorities, and send to him for the President's approval. This will have to be done by you from Ghataprabha itself. But may I make another suggestion? While submitting your draft programme, you can request the Military Secretary that in case the President will be ready by 8 a.m. after his breakfast etc. (this is in case he does not approve of your suggestion to have breakfast with you at the Institute) for his programme in the Institute, he could be driven straight to the Institute Since the Institute, I presume, is not even 5 minutes' drive from the Ghataprabha station, this will enable you to have at least 1½ hours for your programmes. I have already communicat

this suggestion to the Superintendent (Tours) and he replied that this can be arranged, provided the President finishes his breakfast, etc. by 8 a.m. and if the President approves of this. By this you will get another half an hour more for your programme without inconveniencing or disturbing the present programme chalked out for the President.

Mr. Mane had telephoned to me this morning and told me how anxious you were about this programme. I can understand it, but I am afraid it may not be possible for us to get more time from the President than what has been allotted to us at pr

Yours

Gopi

Karnatak Health Institute,
Ghataprabha
Dist:- Belgaum
21 - 10 - 1959.

My dear Rajendra Ba__,

I am indeed glad to know that you are visiting the Karnatak Health Institute on Friday, the 6th of November 1959 and inspecting the work done by them during the last Twenty-four (24) years and more.

After the nation won freedom I slackened my political activity and devoted much of my time and energy for carrying on humanitarian and social work through the Karnatak Health Institute, with which I am connected from its very inception. Thus, for more than a decade now I have made Ghataprabha, my "Karma Bhoomi". During off sessions of the Parliament I work here and help the self-sacrificing and loyal staff and workers of the In-stitute.

Your acceptance of my invitation to visit this Institute is, I consider, a great honour done to one of the very few surviving old-time workers in appreciation of the life-long sacrifices made by them in the onward march of country.

After you see the work that is being done here ~~x~~ and in the surroumding area of about 30 miles radius, you will, I am sure, ~~please to, [illegible]~~ give Your ~~Ashirvad~~ Ashirvad which will give new vision and courage to many many millions and make them go straight to reach their goal.

Longing to see you here and show you my "Karma - Bhoomi " on Friday, the 6th of November, 1959,

I remain

Your ever affectionate brother,

M. S. Handiker

To

19

Dr. Rajendra Prasadji,
President of the Union of India,
N E W - D E L H I.

Respected Sir,

We, the President, The Chairman and Members of th Governing Council of the Karnatak Health Institute, accord you a hearty welcome on our own behalf and on behalf of the Members of the General Body of the Institute and all the Villagers we serve in these areas, on the occassion of your first visit to this Institute.

In the Year 1957 you were good enough to receive and address of welcome given on behalf of our workers on the Ghataprabha Railway Station. You gave them your blessingsx and advice. To-day, you have again honoured us by accepting our invitation and inspecting our work for humanity.

On this solemn occasion you will kindly permit us to acquaint you with the salient features and the main acti--vities of this Institute. It is a body registered in the year 1929 under the Societies Registration Act and has commenced its work from the year 1935. This Institute was founded by Dr. G. R. Kokatnur M. D. It is a " Medical mission ". It is an enterprise of social minded people of Karnatak and Maharashtra. It is built by the efforts of its members, by the donations from several benefactors and money received from paying patients. Actually it is raised by small men for the small men of the rural areas — our Villagers. For the last four years or so the un Union as well as the State Governments and many international agencies have also extended their helping hand in a bigger way.

This Institute is having at present a General Hospital, a Tuberculosis Sanatorium, a Maternity Training Centre a Nurses Training Centre, a Village Health Service, a Welfare Extension Project, and Medico-Social Service, and Family Health Insurance Scheme.

The General Hospital Consists of 65 beds. In addition, we have 25 beds in Maternity Centre, The Tuberculosis section has 91 beds out of which 48 are either under heavy concessions or are free. A maternity service for rural women is run almost free since 1950, with the idea of educating them in safer methods of deliveries as against premitive and unhygienic practice based on superstition and ignorance. A Village Health Service is run with the help of mobile unit since 1955. This spreads to over 12 Centres for 54 villages with a population of over 50,000. A Nurses Training School for Auxiliary Nurses to be employed in N. E. S. in Bombay and Mysore is run since 1955. Many Girls from Maharashtra, Old Karnatak, Mysore and Coorg have already received training from here. So far 57 candidate have passed through the Centre and have entered Villages for duties under the various Schemes of the Governments of Bombay and Mysore.

Eminent specialists in Medical line are paying periodic visits to this Institute for bringing home to rural public, the latest and the best in Medical line.

It has been able to produce certain amount of awakening and Health Consciousness in the surrounding villages by its service during 24 years; and as a result, 5 Maternity Homes have sprung up in this area with public efforts. The Welfare Projects, K. H. Institute and some other agencies help to creat a new era in Maternity Service in places where they never dremt of it.

The Institute aims at remaining a Rural Health Centre and while doing it also plans to bring all the latests in Medical advance to the Service of neglected villages. It plans to add the following for this purpose.:-

1. Training the indigenous Dais as suggested by Government of India.
2. Extending the Village Health Service to as many Villages as is possible for us to do.
3. Starting some research problems and Surveys for the benefit of villagex life.
4. Bacteriological and other works and research in Tuberculosis.
5. Improvement in the standard of living of its workers by every possible means and reducing continuously the cost of medical treatment of even the most complicated type.

6. We have just completed arrangements for starting a department of Lung and Heart Surgery in this place.

The Institute owns for this purpose 147 acres of land on which it has constructed a number of buildings. It has a very good collection of armamentorium of latest type with workers who can use it. It has also a very eminent band of workers devoutly serving the aims and ideals from different parts of this country. Governmental help has added speed to them all.

We are proud to present this summary of everything about the Institutes achievements to the President of our nation. We now require your blessing for the fulfilment of the future.

We thank you again for the kindness shown in visiting this Institute.

We remain.

Yours faithfully,

Ghataprabha
Dist: Belgaum
22-10-59.

It is a body registered in the year 1929 under the Societies Registration Act and has commenced its work from the year 1935. This Institute was founded by Dr. G. R. Kokatnur M. D. It is a " Medical mission ". It is an enterprise of social minded people of Karnatak and Maharashtra. It is built by the efforts of its members, by the donations from several benefactors and money received from paying patients. Actually it is raised by small men for the small men of the rural areas -- our Villagers. For the last four years or so the Union as well as the State Governments and many international agencies have also extended their helping hand in a bigger way.

This Institute is having at present a General Hospital, a Tuberculosis Sanatorium, a Maternity Training Centre, a Nurses Training Centre, a Village Health Service, a Welfare Extension Project, and Medico-Social Service, and Family Health Insurance Scheme.

The General Hospital Consists of 65 beds. In addition, we have 25 beds in Maternity Centre, The Tuberculosis section has 91 beds out of which 48 are either under heavy concessions or are free. A maternity service for rural women is run almost free since 1955, with the idea of educating them in safer methods of deliveries as against premitive and unhygienic practice based on superstition and ignorance. A Village Health Service is run with the help of mobile unit since 1955. This spreads to over 12 Centres for 54 villages with a population of over 50,000. A Nurses Training School for Auxiliary Nurses to be employed in N. E. S. in Bombay and Mysore is run since 1955. Many Girls from Maharashtra, Old Karnatak, Mysore and Coorg have already received training from here.So far 57 candidate have passed through the Centre and have entered Villages for duties under the various Schemes of the Governments of Bombay and Mysore.

Eminent specialists in Medical line are paying periodic visits to this Institute for bringing home to rural public, the latest and the best in Medical line.

It has been able to produce certain amount of awaken-ing and Health Consciousness in the surrounding villages by its service during 24 years; and as a result, 5 Maternity Homes have sprung up in this area with public efforts. The Welfare Projects, K. H. Institute and some other agencies help to creat a new era in Maternity Service in places where they never dremt of it.

The Institute aims at remaining a Rural Health Centre and while doing it also plans to bring all the latests in Medical advance to the Service of neglected villages. It plans to add the following for this purpose.:-

1. Training the indigenous Dais as suggested by Government of Indi
2. Extending the Village Health Service to as many Villages as is possible for us to do.
3. Starting some research problems and Surveys for the benefit of villagex life.
4. Bacteriological and other works and research in Tuberculosis.
5. Improvement in the standard of living of its workers by every possible means and reducing continuously the cost of medical treatment of even the most complicated type.

3. We have just completed arrangements for starting a department of Lung and Heart Surgery in this place.

The Institute owns for this purpose 147 acres of land on which it has constructed a number of buildings. It has a very good collection of armamentorium of latest type with workers who can use it. It has also a very eminent band of workers devoutly serving the aims and ideals from different parts of this country. Governmental help has added speed to them all.

We are proud to present this summary of everything about the Institutes achievements to the President of our nation. We now require your blessing for the fulfilment of the future.

We thank you again for the kindness shown in visiting this Institute.

We remain.

Yours faithfully,

My dear doctor

I have not done anything in the matter of getting the letter, to be written to our members, printed. you will please draft those letters and send them to the persons concerned.

I saw the Collector this evening and he will arrange for the open jeeps for taking the President from the station to the K. H. J.

As for the flags, you may easily get the ordinary Khaddar flags if you want a silk one we shall have to get it prepared. However I have asked the manager of the Khaddar shop to enquire if a silk flag of 4'x6' can

re get- before the 4th of Nov
you will get- the small
bags at any time

yours sincerely
Richard Lee

My dear Doctor,

I have the P.A. to the Collector this afternoon. The D.S.P. could not secure a shamiana. The Mamlatdar of Chikodi has written that he would try to secure one. The Mamlatdar of Hukeri has been asked to ascertain if the Rayeshab of Vantamuri possesses one.

An open car will not be available. Only decent jeeps can be obtained.

The Collector & the D.S.P. will be coming there within two or three days.

I shall send the small flags with Shri Shreepadrao tomorrow. I shall ask the manager of the Khadi shop to get one big flag of fine & thin Khaddar prepared for us early.

Yours sincerely

Arrive at the Railway Station.

The Proceedings for the departure of the President from a station will take place in the reverse order.

i.e.

1. Guard of Honour.

10-00 A.M.

2. The Chief Minister will conduct the President ø to his saloon(Train) and see the President off, who is resuming his journey by a a special Train.

The Supt. of Police is please supply the following information & make all the necessary arrangements.

AT THE GHATAPRABHA RAILWAY STATION

37

(1) Will there be a Guard of Honour and if so, which unit will it consist of, Army, Navy, Air force or Police ?

PLACE OF GUARD OF HONOUR :-

(At such occasions generally provide a suitable apportunity for the public of the Station and adjacent areas to assemble in large numbers and see and hear the Head of the State, and facilities may accordingly be provided by the authorities concerned be ensure that the desire of the Public is satisfied to the extent possible under the circumstances.)

SECURITY :-

(1) Whether proper security arrangements have been made? Ifso, the details.

(2) Whether the route from the Railway Station to the K.H.I has beer marked?

It is usual to keep the dates and times of the President's movements se-cret from the General Public as long as possible, but those who are concerned in the detailed programme of his tour must, of course be given the requisite information.

The President wishes the Police to be unobstructive as possible and the minimum of all the three kind (C.I.D. Protective and Traffic) to be used on all occasions.

The Superintendent of Police is please supply the

Normal flow of Traffic in the places which the President visits should as far as possible, be not dislocated because of the President's movements in the tour. In the case of a state Drive between two points however sufficient notice should be given to the public, so that they may not be inconvenienced when the roads are closed.

Procedure of Guard of Honour is

II GUARD OF HONOUR

(a) After reception on arrival, the President inspects a Guard of Honour, furnished by a contingent of an army Unit (or Police), or jointly by the Army, Navy and the Air Force, which is generally counted at the Air-field, or outside the Station premises if the arrival is by train.

Thereafter the officials and non-officials present at the Airfield are presented to the President.

Where, as sometimes happens, it may not be possible to follow the appropriate procedure of presenting the officials and non-officials to the President outside the station premises, after the inspection of the Guard of Honour, the presentation may be made on the station platform itself.

(Note :- The proceedings for the departure of the President from a Station will take place in the reverse order.)

(b) Procedure for inspection of Guard of Honour :-

1. On arrival of the President opposite the Guard of Honour, the National Salute is given and plays the first stanza of "[illegible]".

2. Guard "Orders Arms" and Guard Commander moves forward to the President and Salutes.

3. The President inspects the Guard of Honour, preceded by 2 ADC and escorted by the Guard Commander alongside the President on the far side of the line being inspected. The CO and the local military Commander may follow in the rear of the President.

4. On completion of the inspection the President returns to the Saluting point. The Guard Commander salutes and takes post.

Vivekanands literature in Marathi. I find a
little book All the three Sanyasi
referred above are M.A. of Nagpur
University with first class career

I received your letter dated 23.10.5
and accordingly I am sending a short
Reception song in Marathi for
Gawankar 1st year student will be
able to sing it well. I am trying
to compose another one for Gawankar
etc. but one that I have sent to do
may be given to Gawankar. Kindly I will
try either myself or from a friend but
I am not sure

You want me to forget about it but
but how can I do it. I had written to Dr
Vaidya to write to Dr. Sathe and fix the
dates of visit for next month. From Mahavir
letter it seems that the two girls — in
Gokarn Falls are not getting sufficient denseness
Case in that case they will have to be sent
to Kerala but Dr Vaidya consider it

P.T.O.

115 Yeotmal
26.10.59

My dear Dr Hardi ...

Received your telegram at Buld and I have replied it. I was at Nagpur for 3 days and I came here yesterday. At Nagpur I spent my time meeting my old friends and giving them idea about our institute. I made a mistake in not bring literature about our institute, with me. I will send them when I return to Shatafhal

Here, the old memory of my mother-in-law is painful. She always greeted me with joy and was happy to see me, as I was her most favourite ~~son~~ in law. God's wish!

At Nagpur my happiest ~~period~~ time as when I spent two hours in Ramkrishna Ashram and unexpectly I found that three of my high school colleagues from Akola have taken 'संन्यास' and have become the ~~the~~ workers of Ramkrishna Ashram. Nagpur Ashram is doing a good work in translating

New Delhi

October 27, 1959.

dear Doctor Sahib,

Yours of the 22nd which was received by me yesterday. Thanks. You have not so far told me the fate of the telegram that was sent to you. What has happened to that? Was it not delivered to you at all?

I am sending herewith copies of brief life sketches of Dr. Prasad. One of them is copied from the Times of India Directory. I hope this will be sufficien for your purpose. Since you wish to have it translated it should not be very long.

As regards the camera man, I have already telephoned to the super Boss and he said necessary instructions have already been issued. So I presume the camera man will reach there in time.

Nothing more for the present. More later. Rajabai and Sahab are okay.

Yours,

Gokhale

Dear Shri Hardiker,

Your letter dated 26th October 1959 to be present at Ghataprabha on the 6th November 1959 when the President will be inspecting the Karnataka Health Unit. Much as I wish to be there, it seems not possible as I have already accepted and committed for some programmes elsewhere during this period.

Yours sincerely,

Dear Doctor,

Received your letter to Dr. Parulekar. I am glad that Rashtrapati is coming to your place and we are instructing our Belgaum Correspondent Mr. Joglekar to cover his arrival and send the news to our paper at the earliest. I will be glad if you will kindly arrange for a photographer there who can send me a photo of his visit, so that I can use it the next day.

Thanking you,

Sincerely yours,

My dear Doctor,

I have already written to you about the difficulties for my attending the Ghataprabhar function.

The Hubli staff of ' SAMYUKTA KARNATAKA ' is meeting at tea at 6 p.m. on the 5th of Nov. in Hubli so that will take us to about 7 p.m. at least on that day. That makes my going still more difficlut. I hope therefore, you will excuse me. But as you know my heart is already there.

With best regards

Yours Sincerely,

R R Diwakar
